Experience:

• Full Stack Developer Utilising the Most Advanced Technologies | PIAIC

February 2023 – Present

I'm playing a crucial part in fostering innovation and developing dynamic web apps from conception to deployment as a skilled Full Stack Developer with a focus on cutting-edge technology. My knowledge in front-end and back-end development will allow me to create scalable, reliable solutions that make use of the most recent tools and frameworks.

• Web Designer UI/UX | IBEX Global

June 2022 – December 2022

I will play a crucial part in defining the online presence of our projects as an accomplished web designer with a focus on User Interface (UI) and User Experience (UX). My main goal will be to develop aesthetically pleasing and clear designs that effortlessly combine aesthetics and functionality to produce outstanding user experiences.

• Full Stack Web Developer | Arpatech (Pvt) Ltd · Contract

February 2021 – May 2022

I worked at Arpa Tech as a contract web developer for over a year and earned precious experience, in very kind environment.... My Core expertise as a full stack developer was these: React js · Application Programming Interfaces (API) · HTML / CSS, MongoDB and MySQL.

About

As a Next.js and Tailwind CSS Front-end Developer, I have extensive experience building high-performance, responsive, and scalable web applications. I am highly skilled in utilizing the power of Next.js to develop (SSR) and (SSG) web pages. Overall, these skills make me an ideal candidate for any project.
